By David Goldstein

This Investing Strategy is the HOLY GRAIL!

Make Your Money Work For You!

You've heard it time and time again... make your money work for you. It's the Holy Grail of investing.

The problem is most people don't understand what that means.

Let me make it simple.

The BEST way for you to make your money work for you is accomplished in two simple steps.

FIRST, you invest in quality dividend stocks.

SECOND, you take the dividends and reinvest them in other quality dividend stocks.

Do this long enough and you'll have a cash flow generating machine that will not stop! Your money will compound over and over again!

Look, I'm not the first person to develop this strategy. Albert Einstein understood it...

“Compound interest is the eighth wonder of the world. He who understands it, earns it; he who doesn't, pays it.”
- Albert Einstein -

The truth is, the sooner you start investing, the bigger the pile of money and wealth you'll have for yourself and future generations.

Don't believe me?

Just look at the dividends Warren Buffett collects from his investments.

It's estimated that he will collect over \$6 BILLION in dividend payments in 2025 alone.

What follows is a list of 9 of my favorite dividend stocks.

Full Disclosure, I own most of these stocks - so I'm far from unbiased. I'm always looking to buy and sell stocks in my investment and retirement accounts.

So, before you go running off and buying these stocks, take some time and do your own research. Make sure you understand the company and what you're buying.

9 Dividend Stocks I Think Everyone Should Own

Here's the list including recent Yields.

- AT&T (T) - 4.0%
- Ford (F) - 7.4%
- KeyCorp (KEY) - 5.5%
- Verizon Communications Inc. (VZ) - 6.3%
- Kinder Morgan (KMI) - 4.3%
- Oneok (OKE) - 4.6%
- Realty Income Corporation (O) - 5.6%
- Chevron Corporation (CVX) - 4.8%
- Genuine Parts Company (GPC) - 3.5%

There are other dividend stocks I like... but this is a solid list of dividend stocks where you can start your research.

Before you go, let me offer one other dividend paying investment for you to look into.

Special Bonus: Our Favorite Dividend ETFs!

Sometimes, you won't have the time or patience to look into individual stocks... or do all the research in finding the best investments.

Or, if you have a small amount of money - and can't properly diversify your investments. (I recommend holding at least 10 or 20 investments to be diversified.)

There is a shortcut.

Look at the various Dividend ETFs out in the market.

These ETFs invest in a bunch of different companies and you can find ones that focus exclusively on dividend paying stocks.

Here's my favorite Dividend ETF, and before you ask, YES I Own it.

Vanguard High Dividend Yield Index Fund ETF Shares (VYM)

This one ETF holds \$73 billion in assets invested in 450 different stocks... all paying dividends.

The ETF pays a dividend itself of 2.8%

And just look at the stock performance over the long term...

(I took this screen shot at yahoo Finance)

Over the last decade, this ETF has climbed more than doubling in value.

Plus the Dividends are JUICY!

Conclusion To 9 Dividend Stocks You MUST OWN

I just shared with you 9 really interesting dividend stocks for you to add to your portfolio. PLUS, I gave you a bonus pick of my favorite Dividend ETF.

Like I said earlier... there is no better way to make your money work for you than to buy dividend paying stocks... then reinvest those dividends back into more dividend paying stocks.

You'll create your own cash machine!

Remember, do your research... and before long your money will be working hard for you!

Good Trading,

David Goldstein

This report and all of our products, emails, blog posts, social media posts and content are offered for educational and informational purposes only and should NOT be construed as a securities-related offer or solicitation or be relied upon as personalized investment advice.

Our company, employees, and contractors, are NOT financial advisors, registered investment advisors, or a Broker/Dealer. We do not offer or provide personalized investment advice. Although our employees and contractors may answer general customer service questions, they are not licensed under securities laws to address your particular investment situation. Nothing in this report, nor any communication by our employees or contractors to you should be deemed as personalized investment advice.

There is a risk of loss in all trading, and you may lose some or all of your original investment. Results presented are not typical.

Past performance is no guarantee of future results. All information is issued solely for informational purposes and is not to be construed as an offer to sell or the solicitation of an offer to buy, nor is it to be construed as a recommendation to buy, hold or sell any security. All opinions, analyses and information contained herein are based on sources believed to be reliable and written in good faith, but no representation or warranty of any kind, expressed or implied, is made including but not limited to any representation or warranty concerning accuracy, completeness, correctness, timeliness or appropriateness. Investments recommended in this publication should only be made after consulting with your financial advisor.

Examples in these materials are not to be interpreted as a promise or guarantee of earnings or profits. Earning and profit potential is entirely dependent on the person using our product, ideas and techniques. This is NOT a “get rich scheme.”

Your level of success in attaining the results claimed in our materials depends on the time you devote to the program, ideas and techniques mentioned, your finances, knowledge, and various skills. Since these factors differ according to individuals, we cannot guarantee your success or income level. Nor are we responsible for any of your actions.

Hypothetical performance results have many inherent limitations, some of which are described below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown; in fact, there are frequently sharp differences between hypothetical performance results and the actual results subsequently achieved by any particular trading program.

One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk, and no hypothetical trading record can completely account for the impact of financial risk of actual trading.

For example, the ability to withstand losses or to adhere to a particular trading program in spite of trading losses are material points which can also adversely affect actual trading results. There are numerous other factors related to the markets in general or to the implementation of any specific trading program which cannot be fully accounted for in the preparation of hypothetical performance results and all which can adversely affect trading results.

Owners, management, employees, contractors and members of their family, affiliates, and agents may hold stock in profiled companies, some or all of which may have been acquired prior to the dissemination of this report. They may buy or sell stock in profiled companies at any time with or without notice. We may benefit from any increase in the share prices of profiled companies.

There is an inherent conflict of interest in our statements and opinions and such statements and opinions cannot be considered independent.

Through the use of this email, article, report, or website you agree to hold our company, our owners, management, employees, contractors, affiliates, and agents harmless and to completely release them from any and all liability due to any and all losses, damage, or injury monetary or otherwise that you may incur.

Information contained in our emails and on our website contains "forward-looking statements." Subscribers are cautioned not to place any undue reliance upon these forward-looking statements. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, goals, assumptions or future events or performance are not statements of historical facts and may be "forward-looking statements". Forward-looking statements are subject to a number of risks, known and unknown, that could cause results or operations to differ materially from those anticipated. We have no obligation to update forward-looking statements. Some of the statements and financial projections contained in the material are forward-looking statements and not statements of fact.

Forward-looking statements are generally accompanied by words such as "intends", "projects", "strategies", "believes", "anticipates", "plans", and other terms which convey the uncertainty of future events or outcomes. No assurances are given that such expectations will prove to have been correct. Readers are cautioned not to place undue reliance on forward-looking statements

Specific financial information, filings and disclosures as well as general investor information about publicly traded companies, advice to investors and other investor resources are available at the Securities and Exchange Commission website (<http://www.sec.gov>) and (<http://www.nasdaq.com>)

Futures and forex trading contains substantial risk and is not for every investor. An investor could potentially lose all or more than the initial investment. Risk capital is money that can be lost without jeopardizing ones' financial security or lifestyle. Only risk capital should be used for

trading and only those with sufficient risk capital should consider trading. Past performance is not necessarily indicative of future results.

If you trade options, we recommend you read and fully understand all the information contained in the Characteristics and Risks of Standardized Options. It's also known as the Options Disclosure Document and it explains the characteristics and risks of exchange traded options.
